

Product : WA315-1KTx2ML**Product Name : Foliar Care Kit****Product Information :**

Foliar Care kit can be used to prevent the vegetables, fruits, oilseeds, agricultural crops etc., from various types of pathogenic microbial borne infections.

Kit Contents :

WA302-1NO x 2ML	SuperPhosSol	WA302 and WA304 helps in preventing various pathogenic microbial infections in agricultural crops.
WA304-1NO x 2ML	SuperRooTric	
WA306-1NO x 50ML	SuperStiker	Silicon based non-ionic agricultural wetting agent, which enhances the efficacy of the above mentioned products when used in combination during spraying.

Recommended Dosage :

Mix SuperPhosSol [2ml], SuperPotSol [2ml], SuperRooTric [2ml] and SuperStiker [50ml] in 100 liters of water and use for one acre land.

Directions for Use :

1. Measure out approximately 10 liters of water. Add contents of both the vials in the kit, e.g., SuperPhosSol [WA302] and SuperRooTric [WA304] and mix well to get a homogenized solution.
2. To increase the efficiency of the microbial solution, add silicon based non-ionic wetting agent SuperStiker [WA306] at the rate of 50 ml per 100 liters and mix well.
3. Make up the final volume to 100 liters by adding water.
4. It is recommended to carry out spraying in early morning prior to sunrise or early evening prior to sunset.

Suitability :

This kit has been tested and is found suitable for agricultural use.

Storage & Shelf life :

Store the product in a cool dry place away from direct heat and sunlight. Use before expiry date mentioned on the label.
