

Product : WA317-1KTx2ML**Product Name : Insect Shield Kit****Product Information :**

Insect Shield kit can be used to prevent the vegetables, fruits, oilseeds, agricultural crops etc., from various types of pathogenic insect pests borne infections.

Kit Contents :

WA310-1NO x 2ML	SuperVinashak	WA310 and WA311 helps in preventing various pathogenic insect pests borne infections in agricultural crops.
WA311-1NO x 2ML	SuperGhatak	
WA306-1NO x 50ML	SuperStiker	Silicon based non-ionic agricultural wetting agent, which enhances the efficacy of the above mentioned products when used in combination during spraying.

Recommended Dosage :

Mix SuperVinashak [WA310], SuperGhatak [WA311] and SuperStiker [WA306] in 100 liters of water and use for one acre land.

Directions for Use :

1. Measure out approximately 10 liters of water. Add contents of both the vials in the kit, e.g., SuperVinashak [WA310] and SuperGhatak [WA311] and mix well to get a homogenized solution.
2. To increase the efficiency of the above microbial solution, add silicon based non-ionic wetting agent SuperStiker [WA306] at the rate of 50 ml per 100 liters and mix well.
3. Make up the final volume of the above solution up to 100 liters by adding water.
4. It is recommended to carry out spraying in early morning prior to sunrise or early evening prior to sunset.

Storage & Shelf life :

Store the product in a cool dry place away from direct heat and sunlight. Use before expiry date mentioned on the label.
