

Technical Data

Product : WA341

Product Name : SuperV-Fly 102 [Veg Fly Lure]

Product Information :-

1. SuperV-Fly 102 Lure [parapheromone which attracts the male for their gonadal development] is a highly effective, ecofriendly, non-toxic, MAT technology based method to control vegetable flies, which pose serious damage during vegetable cultivation and causes severe yield loss, primarily *B. cucurbitae*.
2. This lure is species specific hence does not harm beneficial insects in the field.
3. The lure doesn't contain any insecticide

Crop Recommendation :-

Gourds, chilly, peas, tomato, brinjal, beans, maize, sunflower, cauliflower, lemon, pumpkin etc.

Field Viability :-

50 - 60 days under field conditions upon opening.

Recommended application :-

6 lure / acre plot

Storage & Shelf life :-

Store the product in a cool dry place away from direct heat and sunlight. Open the pack only when the lure is required for use.

Available Packing :-

WA341-2 NO x 1PK

Note :-

For Agricultural use only
