

Technical Data

Product : WA378

Product Name : SuperSpiid

Product Information :

Highly effective bait against wide variety of snail and slugs. Easily degradable and becomes part of the soil.

Crop Recommendation :

Cabbage, Flowers, Tomatoes, Cauliflower, Lettuce, Spinach, Celery, Garden crops, Garlic, Potatoes, Onions, Beet, Broccoli, Carrot, and other crops where infestation observed.

Where to Use : Fields, Greenhouse, Lawns, Fruit orchards, Flower gardens, Vegetable gardens etc

Recommended Application : 1 kg/acre

Mode of Action :

It is ingested by slugs and snails when they travel from their hiding places towards plants. Ingestion, even in small amounts, will cause them to cease feeding, become less mobile, and repel them away within three to six days.

When to Apply :

Apply the granules during evening as snails travels and feeds mostly by night or early mornings.

How to Apply :

1. Granules can be scattered on the infested areas or fields.
2. Apply around the perimeter of fields and damp areas. Add on ground covers where snails obtain shelters by day.
3. If slugs and snails are already in the plots, then carefully spread bait between the furrows near the base of the plants. For small plots, treat around the base of the plants to be protected. Do not spread over the entire area but apply selectively.

For Vegetables

If slugs or snails are inside the rows, then scatter the bait on the soil around the base of the plants and between the rows.

Technical Data

For Greenhouses

Where slugs or snails are a problem in greenhouses, scatter the bait in the plant pots of plants being damaged or around pots on greenhouse benches.

For Lawns

Use the bait on lawns as a buffer zone around gardens. When slugs or snails are detected, scatter the bait. Scatter by hand where the slugs or snails are observed.

Shelf life : 6 months

Storage :

Store the product in a cool dry place away from direct heat and sunlight. Open the pack only when the lure is required for use.

Note :

Take care extra so that water or rain will not wash away the product after application.
Wash hands thoroughly after using the products. Do not touch eyes. May cause eye irritation.
For Agricultural use only
