

Product Code: WA421

Product Name: Warkem's GlueePad® (Pink Sticky Pads)

Product Information:

Warkem's GlueePad® (Pink Sticky Pads) are used as an integral part of Integrated Pest Management for monitoring and controlling pest population.

Insect Pests Monitored or Controlled by Warkem's GlueePad® (Pink Sticky Pads):

Leafhopper, blister beetle, etc. damaging fruit crops and ornamental crops such as rose, lily, gerbera or red colour flowering crops.

When to Use:

Before cultivation of fields or gardens/orchards/greenhouses or before insect pest's infestation.

Features:

- Pad size: 15 cm x 20 cm; 20cm x 30cm
- Easy to install, ecofriendly.
- Time and labor saving.
- The glue does not dry out and the pads will last until the surface area is completely covered with insects, even though rain.
- Highly attractive towards pests, less effective against pollinating insects.
- Attracts pests from long distance.
- Can be used in green houses, agricultural farms, gardens, nurseries and anywhere where insects are a problem.

Directions for Use:

- Take a wooden stick to hang the Warkem's GlueePad® (Pink Sticky Pads) in between the standing crops in such a way that it will stand one feet above the crop in the field.
- Remove protective plastic cover present over Warkem's GlueePad® (Pink Sticky Pads) and arrange it in the east west direction of the wind.
- Precaution should be taken while hanging the Warkem's GlueePad® (Pink Sticky Pads) is that leaves should not stick on the surface of the pad otherwise it will reduce the effectiveness of the pads.
- Discard the pads once it gets completely covered by pests or dust.

Requirement of Warkem's GlueePad® (Pink Sticky Pads) Per Acre:

25 numbers of GlueePads recommended per acre [Number of GlueePads per area depends on the number of insect pests per area].
