

**Product code:** WA431

**Product Name:** Super Basal D – MULTI™ MYKO

**Product information:**

Super Basal D – MULTI™ MYKO is a specially designed kit that contains Macronutrients, Micronutrients along with Mycorrhiza and can be used as basal dose during the time of sowing/planting and transplanting. Mycorrhiza help in vigorous root development, thus useful in the initial stage of crops growth and leads to overall crop development.

**Kit content:**

WA301 - Warkem's Soil Organic Supplement® (SOS)

WA348 - Warkem's Phosphate Rich Organic Manure® (PROM)

WA354 - WiSuperSOS®

WA401 - SuperMycorrhizA™ Plus

WA406 - Super Aza-Q™ (GR) 1500ppm (Neem based granular formulation)

**How to Use as a Basal dose:**

Mix all the kit contents of WA418 (WA301 + WA348 + WA406 + WA307 + WA401) in 50 kg Compost / Vermicompost). This mixture is ready for Broadcast in the main field.

**Benefits of Basal dose application:**

- Basal dose plays an important role in initial growth & development of germinating seedling.
- It helps in early establishment of crop which is helpful for faster vegetative growth.
- Complete basal dose helps to build resistance for fight against biotic stress.
- It reduces frequent application of nutrition.
- Mycorrhiza help in vigorous root development.
- It is easily applicable during seed sowing / plantation / transplantation.

**Storage:**

Store in cool place away from direct sunlight and heat. Do not store the product along with food or animal feed. Use before expiry date mentioned on the label.

**Note:**

For Agricultural use only.

**Warranty:**

The use of this product is beyond our control, we only assure the uniform quality of the product. The company is not responsible for crop damage occurring due to usage other than recommended dosage, sudden changes in environmental conditions or any natural calamity.
