

Product : WA321**Product Name : HiFoliarPlus****Product Information :-**

1. This is a combo pack which contains the following
PART A :- HiFoliar Nutrient™ [W180]
PART B :- SuperStiker [WA306]
2. W180 HiFoliar Nutrient™ is a blend of amino acids and other natural nutritive substances. It provides necessary foliar nutrition to the crops, whereas WA306 SuperStiker is a silicon based non-ionic wetting agent which when used in combination with the above enhances the efficacy of the foliar spray.
3. WA306 aids in better wetting, spreading, penetration and uptake of the active ingredients.
4. WA306 does not allow the active product to get wash off easily after spraying.

When to Use :-

- Physiological stress
- New vegetative growth
- Pre and post flowering and fruit setting

Directions for Use :-***For Preparation of 100 Liters of Solution***

1. Suspend 300gm of HiFoliar Nutrient™ mixture in 10 liter of water with constant gentle stirring till the powder dissolves completely.
2. To increase the efficiency of the solution, add silicon based non-ionic wetting agent SuperStiker at the rate of 50 ml per 100 liters of HiFoliar Nutrient™ solution.
3. Make up the volume to 100 liters by adding water.
4. It is recommended to carry out spraying in early morning prior to sunrise or early evening prior to sunset.

Storage & Shelf life :-

Store the product in a cool dry place away from direct heat and sunlight. Use before the expiry date.

Note :-

For agricultural use only.
