

Product Code: WA353

Product Name: *Wifoliar* (micronutrient)

Product Information:

Wifoliar (micronutrient) is water soluble grade No. micronutrient fertilizer recommended by foliar spray for treating deficiencies of Zn, Cu, Fe, Mn, B and Mo.

Application:

Foliar nutrition in Agriculture.

Product Composition:

Micronutrient content % by weight minimum

Fe: 2.5%; **Mn:** 1.0%; **Zn:** 3.0%; **Cu:** 1.0%; **Mo:** 0.1%; **B:** 0.5%;

Dosage:

1KG/1000 liters of water.

When to use:

Physiological stress, new vegetative growth, pre-& post flowering & fruit setting.

Directions:

For making 1000 liters of WiFoliar Micronutrient Solution:

Suspend 1kg of WiFoliar Micronutrient in 1000 liters of water with constant gentle stirring till the powder dissolves completely. To increase the efficiency of the solution, add non-ionic silicon based wetting agent Warkem's SuperStiker® (WA306) at the rate of 50ml per 100 liters of WiFoliar Micronutrient solution. It is recommended to carry out spraying in early morning prior to sunrise or early evening prior to sunset.

Storage & Shelf life:

Store in cool place away from direct sunlight and heat. Do not store the product along with food or animal feed. Use before expiry date mentioned on the label.

Note: For Agricultural use only.

Warranty:

The use of this product is beyond our control, we only assure the uniform quality of the product. The company is not responsible for crop damage occurring due to usage other than recommended dosage, sudden changes in environmental conditions or any natural calamity.
